Mechanicsburg, PA • purnima.adhikari820@gmail.com • github.com/padhikari26

EDUCATION

Cumberland Valley High School — Mechanicsburg, PA (Class of 2026)

GPA: 91/100 Unweighted, 93/100 Weighted ($\approx 3.7/4.0$ equivalent)

Relevant Coursework: *H Comp Sci/Programming II; CNT120 (Dual Enrollment); College CIS (Dual Enrollment); Calculus I (DE); Calculus II (DE); College Calculus (HS); Statistics; AP Precalculus; *H Chemistry; Conceptual Physics

EXPERIENCE

Instructor & Founder, Python Bootcamp — Virtual (Overseas learners) (Aug 2025 – Present)

- Lead weekly Zoom-based classes; transitioning from online Python IDE to Replit/VS Code; planning Discord or Google Classroom for collaboration.
- Built a peer-learning culture—students share errors and explain fixes to each other.
- Focus: fundamentals, debugging habits, and confidence-building through small projects.

Data Science Researcher — The Coding School (Jul 7 – Aug 8, 2025)

- Analyzed the Johns Hopkins COVID-19 dataset with Python/Pandas/Matplotlib.
- Explored associations between vaccination timing and mortality trends; presented findings at a student symposium in College Park, MD.
- Strengthened EDA, visualization, and technical communication skills.

Co-Developer, NAFA Samaj Community App — Arizona Nepalese community (2025)

- Built a mobile app to centralize events, announcements, and resources for community members.
- Prioritized accessibility and simple flows; iterated based on early user feedback.
- Planned next steps: calendar sync, role-based access, and feedback forms.

AI Scholar — Inspirit AI (Summer 2024)

- Predicted crop yield using soil-microbe data with Linear Regression, KNN, Decision Trees, and Random Forest (best baseline).
- Outlined improvements: add moisture/pH/sunlight features; test ensembles and pruning; evaluate across additional farms.

Participant, Harvard AI Bootcamp — Harvard University (Jun 9 – 13, 2025)

- Experimented with multimodal models (text/image/audio), prompt design, and evaluation (~2h45m per day).
- Documented prompts and outputs for reproducibility and reflection.

LEADERSHIP & ACTIVITIES

Midfield Player — EagleFC (Ongoing)

Regional placements: 2nd and 3rd • Built resilience, communication, and decision-making under pressure.

Co-Planner — Nepali Student Association (NSA) (Ongoing)

Plan inclusive events, coordinate outreach and announcements, and support community-building initiatives.

TECHNICAL SKILLS

Languages	Python, Java, C++
Data & ML	Pandas, NumPy, Matplotlib, scikit-learn
Web & Apps	HTML/CSS, Flask; mobile app development (in progress)
Systems & Tools	Git/GitHub, basic SQL, Cisco Packet Tracer, Linux basics
Foundations	Data structures & algorithms, networking fundamentals, cybersecurity basics
